FY22 RESULTS

22 August 2022
Aidan Williams – Chief Executive Officer
Rob Goss – Chief Financial Officer

Authorisation: This document was approved by the Board of Audinate Group Limited.
Overview of Audinate Today

World-leading supplier of digital media networking for the Professional AV industry

Growing network effect of Dante enabled products in market – now 3,610

Products

Dante comprises software and hardware that resides inside the audio and video products of Audinate’s Original Equipment Manufacturer (OEM) customers

[ For further information on Dante: https://www.audinate.com/meet-dante/what-is-dante ]

22 August 2022
FY22 Results
>A$1bn  Total addressable market(1)

410  OEM brands shipping Dante enabled products

3,610  Dante enabled products available on the market

14x  Market adoption of closest competitor

33,500  Professionals trained on Dante in FY22

1) Management estimate of total addressable market of audio, video and Pro-AV software products

“Dante continues to be the dominant force”

RH Consulting

1) RH Consulting, Networked Audio Products 2022 and Audinate company data
2) Audinate identified 165 old products no longer available – graph has been updated to remove these products evenly over the last five reporting periods, representing the likely period of their discontinuation
Another year of strong execution in FY22

<table>
<thead>
<tr>
<th>FY22 Objectives</th>
<th>Actions</th>
</tr>
</thead>
</table>
| Dante video design wins and next generation software products | ✓ 126 design wins – most designs wins ever, despite supply chain  
✓ 76 design wins relate to next generation software products (60 in 2H22)  
✓ 26 video customers                                                                 |
| Launch new Dante video software and cloud services products | ✓ Initial Dante Studio video software product released – 2 further modules in CY22  
✓ First Dante video OEM software product in advanced stages of customer trials (Dante AV-H)  
✓ Dante Cloud (cloud based DDM) now in beta                                                                 |
| Initiatives to reduce adoption friction (including in-field enablement (IFE)) | ✓ Dante Ready feature (previously IFE) launched in June 22  
✓ Dante Controller release including Dante Activator completed  
✓ 1st third party App released and sold through Dante Controller |
| Improve Dante adoption by non-English speakers | ✓ Audinate website now available in 8 languages  
✓ 10k non-English users of Dante Controller (system setup & troubleshooting software)  
✓ Training conducted in 9 languages to >12k professionals (>75% new contacts) |
| Strengthen products, services & systems against cyber-risk | ✓ Information Security Management System implemented – based on ISO 27001  
✓ Cybersecurity Steering Committee and Cyber Working Group fully operational  
✓ Group-wide Cyber training completed in 2H22                                                                 |
| Implement business scalability initiatives | ✓ Ambitious hiring targets substantively achieved – headcount now 178  
✓ Supply Chain knowledge and expertise strengthened with key hires  
✓ Global Payroll Outsourcing completed in 2H22 |

22 August 2022
FY22 Results
Ongoing product innovation to drive growth

Audinate reveals K-array as first with Dante Ready products

**Dante Ready**
- **Feature** enables Dante users to add more audio channels (capacity) to audio equipment in the field
- Available now for use in products with DEP and DAL
- One-time revenue model, with improved $GP vs CCM
- Sold via Dante Controller or OEM website
- Increases proliferation by reducing marginal cost of adding Dante

**Dante Cloud**
- **SaaS product** enables remote management of Dante installations
- Builds upon DDM functionality
- Now in beta, commercial launch FY23
- Targeted at Managed service providers & Installation managers
- Delivery of value added services building upon widespread adoption of Dante networking technology
- More details: [Dante Cloud](#)

**Dante Studio**
- **Software product** delivering essential video functionality to PC & Mac users for receiving & transmitting Dante video
- Similar to DVS and Via audio software
- Free trial now, commercial launch FY23
- Recurring subscription revenue model
- Additional features to be added in CY23
- Important foundational functionality to unlock video networking TAM
- More details: [Dante Studio video](#)

Dante Video Update

- Silex video business integration complete
- Silex manufacturing restored and operational
- Refined integrated product roadmap complete
- 26 video OEM customers (design wins + Silex)
- First phase Dante Studio launched

Next steps
- Release of Dante AV-H
- Release 2 additional components to Dante Studio
- Video-end point support in DDM
- Target >10,000 end points in FY23
- Target > US$3m in video revenue in FY23
FINANCIAL PERFORMANCE
Chips, cards & modules drive revenue growth

- US$ Revenue increased 33.4% compared to FY21
- GP margin has reduced from 76.4% in FY21 to 74.7% in FY22 as CCM growth outperformed software product
- Chips, cards & modules (CCM) includes AVIO adapters
- Software includes Royalties, Dante Embedded Platform (DEP), Dante Application Library (DAL), Dante Domain Manager (DDM), Dante IP Core & retail sales
- Audinate invoices customers & pays COGs in USD

**Revenue (US$M)**

<td>326</td>
<td>486</td>
</tr>
</tbody>
</table>

- Units shipped grew 8% compared to FY21, with CCM units up 13%
- CCM – Brooklyn, Broadway and Dante AV units grew at >30%. Access to raw materials limited the supply of Adaptor and Ultimo units with unit volumes decreasing by <10%
- Software – Strong growth in a range of software products including IP Core, DEP, and DDM (>30%), offsetting decline in high volume lower value Reference Design royalties which declined 13k units.
- Excluding the impact of Reference Designs all other Software units grew at 30%
Income Statement

1. US$ revenue increased 33.4% to US$33.4M - A$ revenue increasing 38.7% to A$46.3M
2. Gross margin remained relatively strong in FY22 at 74.7% despite supply chain cost pressures.
3. Employee expenses were higher than PY with headcount increasing from 135 (FY21) to 178 (FY22).
4. Sales & Marketing expenses increased due to more travel and recommencement of trade shows.
5. Other operating expenses include $0.5M of acquisition and integration related costs from the Silex acquisition.
6. Depreciation and amortisation expenses are higher than prior year due to increasing focus on developing Audinate’s products, reflecting the expansion of the engineering team.
7. FY21 included $0.8M of other income related to one-off COVID-19 related government grants received.
8. Income tax expense reflects non-recognition of an asset for Australian tax losses.

Additional revenue drives EBITDA growth

1. Gross profit dollars improved due to a US$8.4M increase in revenue
2. # of employees increase from 135 (FY21) to 178 (FY22)
3. $0.9M increase in Opex as the team expands and travel recommences
4. $0.5M Silex acquisition and integration costs
Ongoing revenue growth reinvested in R&D

- Ongoing focus on innovation and R&D to maximise future growth opportunities
- Operating leverage in the cost base is once again evident as additional revenue drives EBITDA growth

Research and Development (A$M)

Revenue, cost trends (A$M)
## Cash-flow Statement

1. **FY22 Operating Cashflow has been impacted by:**
   - increase in inventory $3.7m
   - increase in debtors (record June) $3.2m
   - bonuses paid (none paid FY21) $2.4m
   - receipt of COVID grants in FY21 $1.0m
   - $10.3m

2. Payments for intangible assets primarily represent internal employment and overhead expenses capitalised to development costs.

3. Initial cash consideration of $9.1M for the acquisition of the Silex video business

Balance Sheet

1. Cash & term deposits of $44.5M, with no debt
2. Trade and other receivables up $3.3M to $6.5M with a record sales month in June
3. Increased inventory balance by $3.7M to $5.6M to manage supply chain challenges
4. Intangibles primarily represent internal development costs capitalised & Silex goodwill
5. Other liabilities includes A$1.2M for contingent consideration for Silex revenue earn-out
6. Contributed capital includes $1.3M from the vesting of employee long term incentives in FY22
7. Accumulated losses substantially due to fair value of preference shares at IPO

</table>
Supply chain challenges linger

- Chip shortages
- Spot inventory buys
- Variable delivery dates
- Supplier price increases
- Factory closures
- Dante product redesign
- Dante price increases (10-25%) – maintain GP%
- Record design wins
- Record demand (backlog)

Over the next six months

- Supply chain challenges expected to linger
- Support customer transition from Brooklyn II, Broadway & other products
- Temporary margin pressure, e.g. Brooklyn III
- Revenue likely gated by chip supply (vs demand)
Continuing growth

FY23 Priorities

1. Support customer transition to more available chips & away from legacy products
2. Manufacturers to release Dante video products
3. Generate > US$3 million in video revenue
4. Drive adoption of new Dante products
5. Continued focus on Operational Efficiency
FY23 Outlook

- Existing headcount of 178 is the foundation for doubling revenue in medium term

- Targeting additional headcount of 10% in FY23, with a focus on building capability in the Philippines

- Record levels of demand, fulfilment curtailed by current component shortage

- Supply chain uncertainty expected to linger, impacting both Audinate and our customers in 1H23

- Global macro-economic uncertainty

- Backlog of sales orders and software revenue run-rate support USD revenue growth in the historical range, subject to the risks described above.

- Focus on significant traction in video, including revenue of at least US$3 million in FY23

The pro-AV industry is expected to grow 11% in 2022, to hit a new high-water mark of $263 billion globally. AVIXA estimates the industry will grow nearly 50% over 6 years to $351 billion in 2027

### Supply Chain Management
- Audit of key suppliers completed - no substantial ESG risks in our supply chain
- Commenced development of Supplier Code of Conduct

### Cyber Security Management
- Strengthened IT, privacy and cyber security protection
- Global training on cyber security

### Environment
- Commenced investigation and baseline of footprint
- Reduced head office impact: sensor lighting, recycling & end of trip facilities

### Diversity & Inclusion
- 29% female representation amongst senior executive leadership team
- Global training on sexual harassment & workplace behaviour

### Employee Engagement & Wellbeing
- Top quartile employee engagement
- Employee Assistance Program, monthly wellbeing themes, mental health first aiders and wellbeing support tools

### Supporting Families
- Approved new Paid Parental Leave policy with industry leading leave allowances for primary & secondary carers

### Dedicated ESG Resource

Adopted
Appendices
Audinate is Driving the Transformation of AV

- Networked digital connectivity is replacing traditional, point-to-point analogue cabling in the AV industry

- Software-based AV systems are replacing hardware AV systems, in the next wave of industry transformation

- Transformation analogous to the impact of VOIP on the telecom industry

Audinate Total Addressable Market (‘TAM’)*

* Management estimate total addressable market exceeds A$1bn

The TAM for digital audio networking is A$400m annually for chips, cards, modules & software

Audinate share of Audio Market estimated at 7.8%
OEM Design Wins drive future revenue growth

- Design wins are a key step in the OEM sales cycle
- From design win to product release takes 18-24 months
- Once a new Dante-enabled product is released the OEM keeps buying more Dante units as long as they keep selling their product
- Dante units may be in the form of chips, cards, modules or software
Design wins through to product launch

- 410 OEM brands have announced products in the market
- 103 OEM brands are currently developing their first Dante-enabled products

- Product ecosystem includes 3,610 Dante-enabled products and growing, with 550 OEMs
- 27% CAGR in product ecosystem
- 14x number of products than the next digital audio networking technology

- Moved from an up-front fee to an annual subscription pricing model in mid FY21
- AVIO starter kits have been discontinued and removed from count
Dante Controller

- Free system setup tool
  - Downloadable from Audinate homepage
  - Registration required
  - Makes virtual wires
  - > 250,000 downloads
- Manages audio and video signals
- Simple & easy to use
  - Standard industry matrix view
  - Training provided via Dante Certification
- Devices appear automatically
  - Intuitive device names
  - No magic numbers, MAC or IP addresses
- Devices remember configuration
  - No need for Dante Controller to remain connected to the network
- Provide performance logs
  - Details of each device on the network for trouble-shooting
- More background on Dante Controller:
  https://www.audinate.com/products/software/dante-controller

Dante Controller is the free configuration tool integrators use to create the “virtual wiring” between transmitting devices (e.g. microphones) and receiving devices (e.g. speakers)
Dante Audio and Adaptors

Dante Audio Chips & Modules
- Hardware based implementations for a range of product counts and price points
- Transports uncompressed audio signals across standard computer networks

Dante Adaptors
- Connects legacy equipment to Dante (mostly analogue)
- Adds Dante to existing audio products (analogue, USB and AES3)
- Pulls through other Dante products and software
- Established a global distribution channel of online retailers and country distributors
  - 80 resellers and growing
  - Strong initial demand with sales performance and repeat orders
- Adapter modules sold direct to OEMS

Brooklyn
- 32 & 64 audio channel counts
- Used in Mixing Consoles & Signal Processors

Broadway
- 8 & 16 audio channel counts
- Used in networked Amplifiers and Ceiling Microphones

Ultimo
- 2 & 4 audio channel counts
- Used in networked Speakers and Microphones

Adaptors
Dante audio software

Dante audio device software
- Software based implementations for a range of product counts and price points
- OEM customers, based on per unit royalty model
- Transports uncompressed audio signals across standard computer networks
- Provides perfect inter-operability with Dante chips, cards & modules and other software products
- Used in a wide variety of audio products, including speakers, microphones, amplifiers, digital signal processors and mixing consoles
- Configured using Dante Controller and can be managed via Dante Domain Manager
- More background available: Dante IP Core, Dante Embedded Platform, Dante Application Library

Reference Design
- Legacy product
- Up to 512 audio channels
- Small number of high-volume customers

IP Core
- Next generation high performance product
- Up to 512 audio channels
- For FPGA-based OEM products
- BOM savings for OEM by sharing chip

Embedded Platform
- Up to 128 audio channels
- For Linux-based OEM products
- Supports Intel/x86 & ARM processors
- BOM savings for OEM by sharing chip
- “Dante Ready” available

Application Library
- For OEMs & Software Developers
- Simple way for software developers to add Dante to their products
- “Dante Ready” available

Device Software
Dante Virtual Soundcard

- Turns a computer into a Dante-powered workstation, integrating a Mac or PC with Dante-enabled audio equipment on a network
- Connects to record, process and playout using any audio application and any combination of Dante-enabled devices
- Up to 64 audio channels
- More information available here: Dante Virtual Soundcard

Dante Via

- Routes audio from devices and applications to one another – up to 16 audio channels
- Connects devices and applications to an existing Dante network
- Enables the connection of USB and FireWire devices to Dante networks
- More information available here: Dante Via

Get Dante Via

Buy a Dante Via License

Permanent License - $59.99 USD
(activates one computer, transferable)

Combo Pack - $69.99 USD
Save $39.99 on Dante Via and Dante Virtual Soundcard when bought together

Local currency, tax and payment methods apply where applicable. Prices may fluctuate due to exchange rates.

Dante Virtual Soundcard is a robust, high channel count application with the single purpose of getting large numbers of audio channels in and out of computers while Dante Via allows for a more diverse set of devices and applications, but at a lower channel count.
Dante Domain Manager

- **Security**
  - User logins and roles
  - Prevent unauthorised changes
- **Scalability**
  - Create Dante systems spanning campus networks
  - Group Dante devices into logical managed systems
- **Visibility**
  - Centralise Dante system management
  - Monitor system status and changes remotely
- More information available at: [Dante Domain Manager](#)

Dante Domain Manager offers crucial management Capabilities, further differentiating Dante audio & video
Important notice and disclaimer

Disclaimer
To the maximum extent permitted by law, none of the Audinate Group Limited or its subsidiaries or their directors, employees or agents accepts any liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this presentation. In particular, no representation or warranty, express or implied, is given as to the accuracy, completeness or correctness, likelihood of achievement of reasonableness of any forecasts, prospects, statements or returns contained in this presentation. Such forecasts, prospects, statements or returns are by their nature subject to significant uncertainties and contingencies. Actual future events may vary from those included in this presentation.

Summary information
This presentation is for information purposes only and is not a recommendation or advice in relation to Audinate or any product or service offered by Audinate or any of its subsidiaries. The information in the presentation is of a general nature only and is not intended to be relied upon as advice to investors or potential investors.

Currency
All amounts in this presentation are in Australian dollars unless otherwise stated.

Past performance
Past performance information, including past share price information, given in this presentation is given for illustrative purposes only and should not be relied upon as an indication of future performance.

Future performance
Forward-looking statements, opinions and estimates provided in this presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions.

Financial information
Certain financial data included in this presentation is ‘non-IFRS financial information.’ These measures are used internally by management to assess the performance of the business and make decisions on the allocation of resources and are included in this presentation to provide greater understanding of the underlying financial performance of the Group’s operations. When reviewing business performance, this non-IFRS information should be used in addition to, and not as a replacement of, measures prepared in accordance with IFRS. Readers are cautioned not to place undue reliance on any non-IFRS financial information and ratios included in this presentation. The non-IFRS information has not been subject to audit or review by Audinate’s external auditor.

Market share information
All market share information in this presentation is based on management estimates and internally available information, unless otherwise indicated.

No offer of securities
Nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy or sell Audinate securities in any jurisdiction.

Reliance on third party information
The views expressed in this presentation contain information that has been derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information. This presentation should not be relied upon as a recommendation or forecast by Audinate.

The non-IFRS measures do not have any standard definition under IFRS and may be calculated differently by other companies.
